

BSYM2005: LIST OF ACCEPTED ABSTRACTS

Paper #	Paper Title	Category
1568964092	Data Quality, Interoperability, Biometrics Fusion, and Template Ageing: Challenges for ePassports	O
1568964122	A Pose Invariant Face Recognition Method	O
1568964482	Liveness Detection Using An Intensity Based Approach in Fingerprint Scanners	O
1568964502	Multi-biometric Fusion Research Results Using NIST BSSR1 Data	O
1568964504	A Model Based, Anatomy Based Method for Synthesizing Iris Images	O
1568964505	Robust Pre-processing Techniques for Non-ideal Iris Images	O
1568964518	Template Aging: A Study of the NIST Biometric Score Set Release 1	O
1568964527	Information content of biometric features	O
1568964550	Can Fingerprints be Generated From Minutiae Points?	O
1568964612	Spoof Detection Using Multispectral Fingerprint Imaging Without Enrollment	O
1568964648	Fingerprint deformation for spoof detection	O
1568964652	Fingerprint-based Fuzzy Vault	O
1568964654	Experimental Evaluation of Iris Recognition	O
1568964716	3D Face Recognition	O
1568964812	User Credential Hardening through Keystroke Dynamics	O
1568963910	Liveness Detection for Iris Recognition	P
1568964126	Multi -modal Face Image Fusion using Empirical Mode Decomposition	P
1568964222	Projective Invariant Hand Geometry: An overview	P
1568964223	Ultra-wide field of view face recognition	P
1568964435	Palm vein authentication technology and the applications	P
1568964462	Fingerprint Verification Testing Scenarios for Multi-impression Enrollment and Template Adaptation	P
1568964478	Self-Configuration of Fusion Rules for Multi-Biometric Systems	P
1568964485	Multispectral Fingerprint Sensing: Effects of Adverse Sampling Conditions	P
1568964501	Iris Recognition Using Non Filter-based Technique	P
1568964515	Identification Model with Independent Matching Scores	P
1568964516	A Genetic Algorithm Based Feature Selection Approach for 3D Face Recognition	P
1568964520	Computational Anatomy for Generating 3D Avatars	P
1568964525	Partial Fingerprint Recognition Based on Localized Features and Matching	P
1568964530	Collection and Segmentation of Non-Orthogonal Irises for Recognition	P
1568964531	Image Quality Assessment for Iris Biometric	P
1568964578	Fingerprint Mosaicking Using Thin Plate Splines	P
1568964644	Fake Hands: Spoofing Hand Geometry Systems	P
1568964653	Empirical Evaluation of Advanced 3D Ear Biometrics	P
